<sup>F</sup> Indicated in FARS as most harmful: "fire."

<u>DATE</u>	<u>NAME</u>	<u>LOCATION</u>	<u>DEATH/INJURY</u>	<u>TRUCK</u>	<u>FARS #</u>	<u>VIN (first 12)</u>	<u>GM OSI #</u>
-------------	-------------	-----------------	---------------------	--------------	---------------	-----------------------	-----------------

\* Indicated in FARS as most harmful: "vehicle in transport."

\*\* Item in parentheses is most harmful event as indicated in FARS.

† Witness statement in accident report or accident report itself indicates occupant was alive and burned because he or she could not be extricated due to flames.

†† Medical examiner or autopsy states fire as cause of death.

**NOTE:** The classification of most harmful event in FARS is often incorrect. For example, FARS does not list fire as the most harmful event in the Dalton, Jones, Lash, Mundy, Peterson and Seebeck cases even though autopsies show death caused by fire.
