# How To Use This Handbook

This Handbook is designed to provide you quick access to the frequently used capabilities of MyFord Touch™ and MyLincoln Touch™. You'll find step-by-step "how-to's" to practice and become adept at, so you can show customers this simple, intuitive and easy-to-use driver connect technology.

Depending on your level of knowledge and experience with driver connect technology, you may use this guide in different ways over time:

- Get familiar with everything you can do to personalize, customize and make the experience your own
- Notice all the available voice commands you can use to access virtually anything you need

- Appreciate the various ways you can use the system and determine which is most convenient for you — voice controls, touch screens or 5-way controllers on the steering wheel

This Handbook is divided into the following color-coded sections to help you find the information you want, when you need it:

- **MyFord Touch/MyLincoln Touch**
  - Commonalities and Uniqueness
  - Personalizing and Using

- **8.0-inch Touch Screen**
  - Phone
  - Entertainment
  - Navigation
  - Climate
  - Menu
  - Information
  - Home

- **4.2-inch LCD Screen (Right)**
  - Infotainment Display
  - Phone
  - Entertainment
  - Navigation
  - Climate

- **4.2-inch LCD Screen (Left)**
  - Multifunction Display
  - Display Mode
  - Trip Computer and Fuel Economy
  - Settings
  - Information

## See how to use this breakthrough, driver connect technology.

### On Your Phone

1. Use your Smartphone to SNAP a photo of the Retailer Education & Training logo to the left
2. SEND it to 601.868.1518 or **ford@snaptag.mobi**
3. GET a link sent back to your phone to view 11 chaptered videos on how to personalize and use MyFord Touch/MyLincoln Touch

### On Your Computer

1. To view videos online, go to FordTube through **www.FMCDealer.com**
2. Look for this icon, to the left, throughout this Handbook for video chapters corresponding to how to use the system

# MyFord Touch™ and MyLincoln Touch™

## Commonalities and Uniqueness

SYNC® powers the whole experience, which means more voice control than ever before. Operate the climate, change the radio stations — and a whole lot more — simply by saying what you want. The basic voice, touch and graphic interfaces are common and familiar whether you're in a Ford or a Lincoln. There are a few differences, however; mainly in terms of color hue, center stack functionality and feature availability.

2011 Ford Edge SEL (optional)

2011 Ford Edge Limited/Sport

2011 Lincoln MKX

### Common Elements

- 8.0-inch color LCD touch screen
- Two 4.2-inch color LCD screens
- Two 5-way steering wheel controllers
- Media hub with RCA jacks, two USB ports and SD Card slot

### Unique to Ford

#### Center Stack:

- Combination of touch-sense switches on center stack and rotary knobs for volume and fan speed (optional SEL)
- Sony®-branded, full touch-sense switches on center stack and rotary knob for volume (standard Limited/Sport)

#### Colors:

- Primary color palette: yellow (phone), red (entertainment), green (navigation) and blue (climate)
- Ford colors for ambient lighting (if equipped)

### Unique to Lincoln

#### Center Stack:

- Full touch-sense switches on center stack with fingertip slider bars for volume and fan speed
- THX® II Certified Audio System with Deep Note Demo (included in Elite Package/freestanding option)

#### Features:

- Cooled front seats
- Heated steering wheel (if equipped)

#### Colors:

- Lincoln color palette: yellow hue (phone), red hue (entertainment), green hue (navigation) and blue hue (climate)
- Lincoln colors for ambient lighting (if equipped)

# MyFord Touch™ and MyLincoln Touch™

## Personalizing and Using

Not all drivers are alike. Driver connect technology puts you in control of what you want when you want it — through voice, touch or a combination of both. There are also many settings and controls you can personalize to suit your interests and the level of engagement you desire. It all starts with customizing your home screens, making a personal temperature setting and much more detailed in later sections of this guide.

### Personalizing

- Primarily use the 8.0-inch center touch screen
- Configure your personal settings before you drive

### Using

- Primarily use voice and the 5-way steering wheel controls to access the two 4.2-inch instrument cluster screens
- Keeps your eyes up on the road and hands on the wheel

### Design Focused on Improving How You Use Your Vehicle

- Ingeniously simple to use
- Centralizes common vehicle functions
- Provides choices for how you wish to use and personalize it to access and control vehicle systems
- Helps create a better-focused driver and reduce distractions
- Data is simplified to where you find exactly the most important things, so you're not sorting through data
- Makes it easier for you to precisely tune your interior to your personal tastes

### Guiding Principles of Overall Design

- People want smart, clear graphics, logically organized with repeatable patterns
- People only want the info they want
- People love LCD screens
- People associate color to convey functionality
- People love the 5-way controllers — familiar to anyone with experience using remote controls, gaming systems or mobile phones

## 8.0-inch Touch Screen

At the heart of the “touch” system is the large, colorful 8.0-inch touch screen, configurable to suit your personal tastes and with voice control, if you prefer, over most everything in the system. The touch screen uses smart corners to situate functions into four categories — Phone, Entertainment, Navigation and Climate. Any of these four categories can be made active, occupying the main screen, by touching the function’s respective corner.

**Phone** — press this corner to access the phone functions

**Menu** — press this to access personalized system settings and to set the clock

**Navigation** — press this corner to access navigation maps (if equipped) or directions through SYNC® Services

**Entertainment** — press this corner to access all available music/media sources

**Information** — press this to access SYNC Services and Apps, SIRIUS Travel Link® (if equipped) and calendar/notifications

**Home** — press this to access 3 different home screen views

**Climate** — press this corner to access all available climate functions

**Note:** When driving, some functions are not available or only available through voice.

## 8.0-inch Touch Screen

### Phone

#### Pairing and Connecting

In order to use any of the phone features — like making a call, receiving a text or using SYNC® Services — you must first pair and connect your Bluetooth®-enabled mobile phone. Here's how:

- Touch “Add a phone” in the upper-left corner of the touch screen to access the phone menu
- When prompted, select “Add”
- Select “Add Device”
- Ensure that Bluetooth is set to “ON” on your mobile phone. (Refer to your mobile phone’s user guide for more information)
- When prompted by your phone, enter the 6-digit pass key provided by SYNC on the screen. Depending on your phone’s capability, you may be prompted with additional options. For more information on your phone’s capability, refer to your phone’s user guide and visit [SyncMyRide.com](http://SyncMyRide.com)
- “Name of phone Added Successfully” will appear in the display when the pairing is successful
- The system will ask you if you want to download your phone book
- The system will also ask if you want to store your phone number as your voice mail number, or change or cancel

See the Information/SYNC Apps section (page 36) for setting up Vehicle Health Report and 911 Assist™.

**Note:** This feature is not available when the vehicle is moving.

# 8.0-inch Touch Screen

## Phone

### Making and Receiving a Call

Pressing the phone smart corner brings up the main menu for all phone functions like quick dial, phone book, call history, messaging and settings. You can also easily:

- Touch "Privacy" to return the call to your mobile phone, or say "Privacy On"\*
- Touch "Hold Call" to put a call on hold, or say "Hold Call"\*
- Touch "Mute Call" to turn your microphone off, or say "Mute Call"\*
- Touch "Join Calls" to connect two calls into a conference, or say "Join Calls"\*

\* Voice commands are available after pressing .

### Making a Call

Once your phone is paired, you can make hands-free calls using SYNC®:

- Press  on the steering wheel
- When prompted, say "Call <name>" or say "Dial" and then the desired number

To end the call or exit phone mode, press and hold  on the steering wheel.

### Receiving a Call

An incoming call interacts with SYNC in much the same way it interacts with your Bluetooth®-enabled mobile phone:

- During an incoming call, an audible tone will sound. If available, call information will appear in the display
- **Accept the call** by pressing "Accept" on the touch screen or by pressing  on your steering wheel controls
- **Reject the call** by pressing "Reject" on the touch screen or by pressing and holding  on your steering wheel controls
- **Ignore the call** by doing nothing. SYNC will log the call as a missed call

**Note:** Downloading phonebook photos is a phone-dependent feature. Ensure the setting is enabled through: Phone > Settings > Manage Phonebook > Download Photos from Phonebook.

## 8.0-inch Touch Screen

### Phone

#### Sending and Receiving a Text

SYNC® not only enables you to send and receive text messages via Bluetooth®, but SYNC will read them to you aloud and also translate text-messaging acronyms such as “LOL.”

#### To Access Your Text-messaging Menu:

- Touch the top-left corner of the display to access the phone menu
- Select “Messaging”
- Select from the following options:
  - Listen
  - Dial
  - Send text (Select from 15 pre-selected messages while driving. See next page.)
  - View
  - Delete
  - Delete all
  - Download new

#### Notes:

- Downloading and sending text messages via Bluetooth are phone-dependent features
- Certain features in text messaging are speed dependent and cannot be completed when the vehicle is traveling at speeds over 3 mph (8 km/h)
- SYNC does not download previously read text messages from your phone
- Please refer to [SyncMyRide.com](http://SyncMyRide.com) for phone compatibility matrix to confirm which phones support this texting feature

# 8.0-inch Touch Screen

## Phone

### Sending and Receiving a Text (continued)

#### Receiving an Incoming Text Message

When there is an incoming text message, an audible tone will sound and the screen will display a pop-up with the caller name and ID if supported by your phone. After pressing (☰), you can say "Listen to Text Message," "Reply to Text Message," or "Messages," then "Call" to call back. Or you can:

- Press "View" to view the text message
- Press "Listen" for SYNC® to read the message to you aloud
- Press "Reply" to send a reply text message
- Press "Dial" to call the contact
- Press "Cancel" to exit the screen

**Note:** If you press "View" and your vehicle is traveling over 3 mph, the system will instead offer to read the message to you.

#### Reply Using Pre-selected Messages

Note: This is a speed-dependent feature and cannot be completed when the vehicle is traveling at speeds over 3 mph.

- Touch the top-left corner of the display to access the phone menu
- Press "Messaging > Send Text"
- Select from the following options:

I'll call you back in a few minutes	I just left, I'll be there soon	Can you give me a call?
I'm on my way	I'm running a few minutes late	I'm ahead of schedule, so I'll be there early
I'm outside	I'll call you when I get there	Call me later
OK	Yes	No
Thanks	Stuck in traffic	LOL

# 8.0-inch Touch Screen

## Phone

### Voice Commands

Virtually anything you can do with the touch functions of the phone features you can also do with your voice. Use the following voice commands for hands-free control of your phone's capability.

Dial	Call**
Call <Name>	Call <Name> at Home
Call <Name> on Cell	Call <Name> at Work
Call <Name> on Other	Call Voicemail
Privacy On*	Go to Handsfree*
Do Not Disturb*	Do Not Disturb Off*
Hold Call On*	Hold Call Off*
Mute Call*	Un-Mute Call*
Join Calls*	Connect <Phone Name>
Bluetooth® On	Bluetooth Off
Pair Phone	Turn Ringer On
Turn Ringer Off	Messages***
Forward Text Message	Reply to Text Message
Listen to Text Message	

\* These commands are ONLY valid while on a phone call.

\*\* If you said "Call," you may say any of the following commands:

Home	Cell
Work	Other

\*\*\* If you said "Messages," you may say any of the following commands:

Listen to Text Message <#>	Forward Text Message
Reply to Text Message	Call

## 8.0-inch Touch Screen

### Entertainment

#### Sources

The lower-left smart corner provides access to all entertainment sources — some built into the vehicle (like the radio) and others brought into vehicle for access to personal media devices. Access is simple through either voice commands or touch.

#### Equipped With the Vehicle

- **AM/FM** — select to access AM/FM1/FM2/AST frequency bands, plus (where available) access subscription-free HD Radio™ technology multicasting [HD1–HD7] along the AM and FM bandwidth spectrum
- **SIRIUS®** — select to access available SAT1/SAT2/SAT3 (6-month complimentary subscription with available pay plans for 1-, 2- or 3-year contract)

#### Available With What You Bring In

- **CD** — select to access the CD menu to Advance, Reverse, Scan, Shuffle or Repeat, plus access Options to adjust the sound settings, text display and compression settings
- **USB** — select to access a music source plugged into the USB port of the media hub, such as a digital media player or thumb drive
- **BT Stereo** — select to access audio streaming wirelessly from a paired, Bluetooth®-enabled mobile phone with wireless command/control and metadata display (artist, title, album art). Command/control is a phone-dependent feature
- **SD Card** — select to access media (audio/pictures) available on the SD Card inserted into the media hub — also houses the map database for the Navigation System
- **A/V In** — select to access audio/video from what's plugged into the A/V jacks of the media hub, such as a digital video camera or gaming system. Must be in Park to view video

## 8.0-inch Touch Screen

### Entertainment

#### HD Radio™ Technology With iTunes® Tagging

HD Radio technology provides an enhanced audio experience with no subscription fees and no special setup to begin enjoying — plus better audio quality, improved reception performance and more choices:

- FM sounds like CD quality, while AM sounds like today's FM
- Crystal-clear, static-free reception
- Unique multicasting of channels (HD2–HD7), along the same radio frequency as HD1 featuring innovative content
- Data displayed on-screen, such as song and artist

This feature is only available with Sony®-branded audio for Ford or THX® II Certified Audio System for Lincoln.

To access, press the lower-left corner of the touch screen. Then, press Radio > Options > HD Radio > On.

When this feature is enabled and you are tuned to a station broadcasting HD Radio technology, iTunes Tagging provides you the ability to capture a song you hear on the HD Radio receiver for later purchase:

- With a simple push of the “TAG” button on the radio display, the song information is stored in the radio’s memory
- Up to 100 tags can be stored on SYNC® until the iPod® is connected to receive the download of metadata. When the iPod is then synced to iTunes, a playlist of “tagged” songs will appear. You then can preview and, if desired, purchase and download tagged songs from the iTunes Store

[Consult your owner’s guide for more working instructions.]

**Note:** Although uncommon, it is possible for radio stations to experience broadcast problems in sending their analog and digital signals. If you experience interrupted service on an HD1 channel, the signal can automatically switch to its analog equivalent. When in HD2–HD7, since there is no equivalent analog channel behind it, if you experience a radio broadcast problem from the station, you may lose the signal entirely. This situation may be a radio broadcaster issue or loss of reception in fringe areas, not something wrong with the radio itself.

## 8.0-inch Touch Screen

### Entertainment

#### SIRIUS® Satellite Radio (if equipped)

Enjoy over 130 channels, including 100% commercial-free music from virtually every genre, plus live sports play-by-play, news, talk and entertainment — all with crystal-clear, coast-to-coast coverage. A six-month subscription is included with vehicle purchase. After the initial six months, you can extend your subscription by calling SIRIUS Customer Care at **1-888-539-7474**.

- Press and hold one of the memory preset areas (on the right side of the screen). You will hear a brief mute and the sound will return when the station is saved
- Press Direct Tune and enter the desired satellite channel number via the on-screen keypad
- Press the SIRIUS button repeatedly to change SIRIUS presets (SIRIUS 1, 2 or 3)
- Press ALERT to save the current song as a favorite (up to 20 can be saved) and the system will alert you when it plays again
- Select Browse to view a list of all available stations. Scroll and select the desired station. You can also lock or skip unwanted channels or view the song/artist on other stations
- Press Replay to access SIRIUS Instant Replay, which allows controls to pause, rewind or replay up to 44 minutes of radio content

[Consult your owner's guide for more working instructions.]

In SIRIUS Satellite Radio mode, voice commands also provide "direct tuning" capability, which allows the customer to readily tune to desired "home team" game broadcasts rather than knowing the channel up front. So, for example, saying "Tune to Boston Celtics game" or "Show NBA games" finds and directs to the channel.

## 8.0-inch Touch Screen

### Entertainment

#### USB

Your USB port is inside your center console, and you can control your USB-connected personal devices with voice commands or touch. This feature allows you to plug in media-playing devices, memory sticks, and also to charge devices if they support this feature. You can use USB1 or USB2. Ensure that you have the correct one chosen on-screen.

To access, select the lower-left corner of the touch screen to access the Entertainment screen. Then, select either USB1 or USB2. You can then select from the following options:

- **Repeat:** Select to repeat the currently playing song/album
- **Shuffle:** Select to play music on the selected album or folder in random order
- **Browse:** Select to browse the contents of the flash drive/thumb drive connected to the USB port
- **Similar Music:** Select to choose music similar to that currently playing
- **Sound Settings:** Access to adjust Bass, Treble, Midrange, Balance and Fade settings
- **To view song information** such as Title, Artist, File, Folder, Album and Genre, touch the on-screen album art. This will take you to another screen where you can view this information

# 8.0-inch Touch Screen

## Entertainment

### Browse

This feature allows you to browse through all media sources — radio stations, CD track list, USB device, etc. — without having to change the audio source to find what you want.

- Press Entertainment > Browse
- Select Browse [Device Name] or Browse All Sources

In addition to browsing via touch, you can also browse by saying what you want.

### Browse Voice Commands:

Browse*	Browse Station List
Browse AM Station List	Browse FM Station List
Browse SIRIUS® Channel Guide	Browse <Category> Channels
Browse <League> Games	Browse CD Track List
Browse USB	Browse SD Card
Browse Bluetooth® Audio	

\* If you said "**Browse**," you may say any of the following commands:

AM Station List	FM Station List
SIRIUS Channel Guide	CD Track List
<League> Games	Bluetooth Audio
USB	SD Card

# 8.0-inch Touch Screen

## Entertainment

### Other Media Sources

#### CD

To access, press the lower-left corner of the touch screen and then select CD:

- Select on-screen options such as Repeat, Shuffle or Scan
- Press Options to access: Sound settings, Text Display and Compression settings
- You can also advance and reverse the current track or current folder (if applicable)

**To view song information** such as Title, Artist, File, Folder, Album and Genre, touch the on-screen album art. This will take you to another screen where you can view this information.

#### A/V In

To access, press the lower-left corner of the touch screen and then select A/V In:

- Your A/V inputs allow you to connect an auxiliary audio/video source (game systems, personal camcorders, etc.) by connecting RCA cords (not included) to these input jacks. The jacks are yellow, red or white, and are located in your center console media hub
- You can also use the A/V inputs as an auxiliary input jack (AIJ) to play music from your portable music player over the vehicle speakers
- Simply plug the adaptor provided with your portable music player into one of the two left A/V input jacks (white or red)

**Note:** Must be in Park to view video.

#### SD Card

To access, press the lower-left corner of the touch screen and then select SD Card:

- The SD Card slot can be used for putting in your SD navigation card (if equipped) or for putting in your SD Card which contains music or pictures
- **Note:** In order for the navigation map features to work, your vehicle must be equipped with the navigation software and the SD navigation card **MUST** be in this slot. (See page 20 for more on available navigation maps.)

#### BT Stereo

To access, press the lower-left corner on the touch screen and then select BT Stereo to listen to streaming audio from your connected Bluetooth®-enabled cellular phone.

# 8.0-inch Touch Screen

## Entertainment

### Voice Commands

Virtually anything you can do with the touch functions of the entertainment features you can also do with your voice. Use the following for hands-free control of your media devices.

#### General Audio Voice Commands:

In order to access the voice commands related to the general audio, say the command "Audio," and then you may say any of the commands shown here:

Off	On
Radio	CD
AM	AM 1
AM Autoset	FM
FM 1	FM 2
FM Autoset	SIRIUS®
SAT 1	SAT 2
SAT 3	Line In
USB	Bluetooth® Audio
SD Card	What's This?

#### Radio Voice Commands:

While listening to the Radio, you may say any of the following commands:

Radio On	Radio Off
AM	AM <530-1710>
AM Autoset	AM Autoset Preset <#>
AM Preset <#>	FM
FM	FM 1
<87.7-107.9>	
FM 2	FM Autoset
FM Autoset Preset <#>	FM Preset <#>
FM <radio frequency> HD <1-7> (if equipped)	FM 1 Preset <#>
FM 2 Preset <#>	Preset <#>
Set PTY	Tune*

**Note:** If you are not listening to the radio, when prompted, say the command "Radio," and then you may say any of the above commands.

\* If you said "Tune," you may say any of the following commands:

<530-1710>	<87.7-107.9>
AM <530-1710>	FM <87.7-107.9>
AM	AM 1
FM	FM 1
FM 2	AM Autoset
FM Autoset	Preset <#>
AM Preset <#>	AM 1 Preset <#>
AM Autoset Preset <#>	FM Preset <#>
FM 1 Preset <#>	FM 2 Preset <#>
FM Autoset Preset <#>	HD <1-7> (if equipped)

#### CD Voice Commands:

While listening to a CD, you may say any of the following commands:

Play	Pause
Repeat	Shuffle
Shuffle CD	Shuffle Folder
Shuffle Off	Repeat Track
Repeat Folder	Repeat Off
Play Next Track	Play Previous Track
Help	Play Track <1-512>

**Note:** If you are not listening to a CD, when prompted, say the command "CD" and then you may say any of the above commands.

## 8.0-inch Touch Screen / Entertainment / Voice Commands (continued)

**Note:** If you are not listening to a USB, SD Card or Bluetooth Audio, when prompted, say the command "USB" or "SD Card" or "Bluetooth Audio," and then you may say any of the above commands.

\* These commands are not valid with a Bluetooth Audio device. Also, video cannot be played through an SD Card or USB, only audio is available.

# 8.0-inch Touch Screen

## Navigation

### Complimentary Directions Through SYNC® and Optional 3D Maps

Whether you opt for the available Navigation software and SD Card navigation map database or stay with complimentary directions through SYNC Services, you always have a navigational aid on-board. The simplest way to think of the distinction between the two is: 3D maps for available SD Card navigation and arrows for SYNC Services. There's much more to the story, though.

#### SYNC Services

- The following SYNC Services are always active, even when the vehicle is equipped with SD Card navigation:
  - Business search
  - Information
  - News
  - Traffic information
  - Sports scores
  - Destinations from business search/information are sent to Navigation for directions

#### SD Card Navigation Maps (if equipped)

- SIRIUS Travel Link® is only available with the SD Card navigation
- When the vehicle's SD Card navigation is installed, SYNC turn-by-turn directions are overridden by the Navigation System

If the SD Card navigation is pulled out, SYNC turn-by-turn directions will resume control.

#### Similarities:

- You can get point of interest information from both. The main differences will be that SYNC Services may have a larger database to pull from and has the possibility of being updated more frequently
- Turn arrows in the 4.2-inch cluster screen are the same for both

When a vehicle has both SYNC Services and SIRIUS Travel Link, you have a choice of where to get the information:

- |  |  |  |  |   |
|--|--|--|--|---|
| <ul style="list-style-type: none"> <li>SYNC Services provides:                             <ul style="list-style-type: none"> <li>Business news</li> <li>Sports news (can focus in on one specific team)</li> <li>Top stories</li> <li>Entertainment news</li> </ul> </li> </ul> | <ul style="list-style-type: none"> <li>SIRIUS Travel Link provides:                             <ul style="list-style-type: none"> <li>Sports scores (receive all scores from a specific sport)</li> <li>Fuel prices</li> <li>Movie times</li> <li>Weather (w/graphics)</li> </ul> </li> </ul> | <ul style="list-style-type: none"> <li>Weather report</li> <li>Traffic</li> <li>Can be more personalized</li> <li>Drive times</li> </ul> | <ul style="list-style-type: none"> <li>Incidence</li> <li>Flow</li> <li>Road closures</li> </ul> | <ul style="list-style-type: none"> <li>Ski conditions</li> <li>Traffic via Navigation (shows red/yellow/green flow lines on the map and icons for incidents)</li> <li>Incidence</li> <li>Flow</li> <li>Road closures</li> </ul> |
|--|--|--|--|---|

**Note:** When driving, some functions are not available or only available through voice.

## 8.0-inch Touch Screen

### Navigation

#### Setting a Destination

Use either the touch screen or voice commands and follow this sequence (requires optional Navigation software and SD Card navigation map data):

**WCITIES: Provides ratings and reviews of POI destinations to keep you better informed.**

#### To Set a Destination:

- Press Dest on the top-right corner of the screen
- Choose to set a destination using any of the following:
  - My Home
  - Street Address
  - Favorites
  - Intersection
  - Previous Destinations
  - City Center
  - Point of Interest (POI)
  - Map
  - Emergency
  - Follow the prompts and enter any necessary information

**Note:** The system uses a Smart Speller which helps facilitate entering information through the keyboard.

- Select Set as Dest
  - Note:** Any Avoid Areas which have been selected are also considered in route calculation.
- Now choose from up to 3 different routes based on route length and estimated times of arrival:
  - **Fastest:** uses the fastest moving roads possible
  - **Shortest:** uses the shortest distance possible
  - **Eco (EcoRoute):** uses the most fuel-efficient route
- Select Start Route

## 8.0-inch Touch Screen

### Navigation

#### Setting Preferences

The touch-screen system allows you to choose and set preferences which the system will take into account when planning your route.

- Press Menu > Settings > Navigation to access:
  - Map Preferences
  - Route Preferences
  - Navigation Preferences
  - Traffic Preferences
  - Avoid Areas

## 8.0-inch Touch Screen

### Navigation

#### Using Map Modes

This allows you to display the map in either the direction you're headed on top or north on top, and also 3D view. Here's how:

#### To Access Map Mode:

- Press the green bar in the upper-right corner of the touch screen. The map screen will display

**Note:** If you press Dest, the system will take you to the Destination menu.

- When in map mode, press the icon on the upper-left side of the screen to toggle between:
  - **Heading-Up:** Select for direction of forward travel to always be the upward direction on screen. Available for map scales up to 2.5 mi/5 km. For scales above that, the setting for Heading-Up is remembered, but the map is shown in North-Up only. If the scale returns below this level, then the Heading-Up setting is restored
  - **North-Up:** In this mode, the northern direction is always the upward direction on screen
  - **3D View:** See bird's-eye view and graphical representation of buildings

### Voice Commands

Virtually anything you can do with the touch functions of the navigation features, you can also do with your voice. Use the following commands for hands-free control of navigation.

#### Navigation Voice Commands:

Show North-Up	Show Heading-Up
Show 3D	Show Map
Zoom In	Zoom Out
Repeat Instruction*	Detour*
Cancel Route*	Cancel Next Waypoint*
Show Destination*	Show Next Waypoint*
Show Route*	Show Turn List*
Navigation Voice On*	Navigation Voice Off*
Navigation Voice Volume Increase*	Navigation Voice Volume Decrease*
Destination Home	Destination <Nametag>
Destination Favorites	Destination Previous Destinations
Destination Nearest POI	Destination <POI Category>
Destination POI Category	Destination POI
Destination Nearest <POI Category>	Destination Street Address
Destination Intersection	Navigation**
Destination***	

\*\* If you said "**Navigation**," you may say any of the previous commands or the following commands:

Zoom Street	Zoom Country
Zoom City	Zoom In <Distance>
Zoom State	Zoom Out <Distance>
Zoom Province	Zoom Out Maximum
Zoom Out Minimum	Destination***

\*\*\* If you said "**Destination**," you may say any of the above commands or the following commands:

Home	<Nametag>
Favorites	Previous Destinations
Nearest POI	<POI Category>
POI Category	POI
Nearest <POI Category>	Street Address
Intersection	

\* These commands are only valid if a route is active.

## 8.0-inch Touch Screen / Navigation / Voice Commands (continued)

### SIRIUS Travel Link® Voice Commands:

Traffic	Weather Map
Weather	5-Day Weather Forecast
Movie Listings	Fuel Prices
Sports Scores*	Sports Schedules*
Sports Headlines*	Travel Link**

\* If you said **“Sports Scores,” “Sports Schedules”** or **“Sports Headlines,”** you may say any of the following commands:

NFL	NBA
NHL	Baseball
WNBA	MLS
College Football	College Basketball
Motor Sports	Golf
My Teams	

\*\* If you said **“Travel Link,”** you may say any of the following commands:

Traffic	Weather Map
Weather	5-Day Weather Forecast
Movie Listings	Fuel Prices
NFL Scores	NFL Schedule
NFL Headlines	NBA Scores
NBA Schedule	NBA Headlines
NHL Scores	NHL Schedule
NHL Headlines	Baseball Scores
Baseball Schedule	Baseball Headlines

Golf Schedule	Golf Headlines
My Team’s Scores	My Team’s Schedule
My Team’s Headlines	

### Service Voice Commands:

These commands are only valid if an off-board route is active.

Services (initiates a phone call)	Update Route
Route Status	Cancel Route
Show Turn List	Repeat Instruction

# 8.0-inch Touch Screen

## Climate

### Commonalities and Uniqueness

The touch screen provides access to all climate control functions and voice commands are also available to provide hands-free control. Using the touch screen, you can:

- Control for driver:
  - Temperature from 60 to 85 degrees
  - Turn On/Off heated seat (if equipped)
  - Turn On/Off cooled seat (if equipped, Lincoln only)
  - Turn On/Off heated steering wheel (if equipped, Lincoln only)
- Control for passenger:
  - Temperature from 60 to 85 degrees
  - Turn On/Off heated seat (if equipped)
  - Turn On/Off cooled seat (if equipped, Lincoln only)
- Activate/de-activate dual-zone control
- Adjust the fan speed
- Select the fan blower areas desired:
  - Defrost and floor
  - Floor
  - Console
  - Console and floor
- Select other climate options, including:
  - Front defrost
  - Rear defrost
  - Auto
  - A/C
  - Max A/C
  - Recirculated air
- Set up the one-touch My Temp feature (See page 27 for more.)
- Turn the power On/Off

## 8.0-inch Touch Screen

### Climate

#### My Temp

Using voice, touch screen or the center console bezel, you have simple access to a customized My Temp setting. Here's how:

**Note:** The MyTemp button is not available on the Sony®-branded interface.

- The My Temp feature can be used to store and recall a preset driver's temperature. This feature is provided so this temperature can be quickly adjusted to a frequently used setting with a single button press
- Touch (+) or (-) to increase or decrease the desired temperature. Touch and hold "My Temp" on the touch screen to save the desired temperature. To access this setting again, simply touch the "My Temp" indicator on the touch screen

# 8.0-inch Touch Screen

## Climate

### Voice Commands

Virtually anything you can do with the touch functions of the climate features, you can also do with your voice. Use the following for hands-free control of a comfortable cabin environment:

#### Climate Control Voice Commands:

Climate Off	Climate On
Climate Automatic	Climate My Temperature
Climate Temperature <60–85> Degrees	Climate Temperature <15.5–29.5> Degrees
Climate Control*	

\* If you said “**Climate Control**,” you may say any of the following commands:

Automatic	Dual Off
Off	On
AC On	AC Off
Max AC On	Max AC Off
Defrost On	Defrost Off
Rear Defrost On	Rear Defrost Off
Recirc On	Recirc Off
Panel On	Panel Floor On
Floor On	Windshield Floor On
Temperature High On	Temperature Low On
Fan Increase	Fan Decrease
My Temperature On	Temperature Increase
Temperature Decrease	Temperature <60–85> Degrees
Temperature <15.5–29.5> Degrees	Temperature**

\*\* If you said “**Temperature**,” you may say any of the following commands:

Low	High
<15.5–29.5> Degrees	<60–85> Degrees

# 8.0-inch Touch Screen

## Menu

### Overview

### Clock, Display and Sound

The MENU button is always visible and active at the top center of the touch screen. It provides quick access to:

- Clock
- Sound
- Settings
- Display
- Vehicle
- Help

#### Setting the Clock

- Press MENU > Clock
- Press (+) and (-) to increase/decrease the time

From this screen, you can also select to view in a 12- or 24-hour mode, to activate GPS time synchronization, set daylight savings time and to have the system automatically update new time zones.

#### Changing the Display

- Press MENU > Display
- Choose to adjust any of the following:
  - Brightness
  - Auto Dim On/Off
  - Mode (Auto, Day, Night)
  - Edit Wallpaper

**To access this screen using voice commands,** press “” on your steering wheel controls and, when prompted, say “Display Settings.”

#### Adjusting the Sound

- Press MENU > Sound
- Choose to adjust any of the following:
  - Bass
  - Midrange
  - Treble
  - Balance and Fade
  - THX® Deep Note Demo (Lincoln only; if equipped)
  - DSP > Stereo > Surround
  - Speed-compensated Volume

#### Adjusting Vehicle Settings

- Press MENU > Vehicle
- Choose to adjust any of the following:
  - Ambient Lighting (see page 30)
  - Vehicle Health Report
  - Edit Door Keypad Code
  - Rear View Camera
  - Enable Valet Mode

## 8.0-inch Touch Screen

### Menu

#### Setting Ambient Lighting (if equipped)

Put a splash of the color and intensity of your choice into the cabin to personalize your ride. When activated, ambient lighting will illuminate footwells and cupholders with a choice of seven colors.

#### Setting Ambient Lighting:

- Press MENU > Vehicle > Ambient Lighting
- Touch the desired color or use the arrows to scroll through the available colors
- Use the slider bar to increase/decrease the light intensity in 5 pre-configured detents
- Select the power button to turn the feature Off

# 8.0-inch Touch Screen

## Menu

### Adjusting the System Settings

From the Settings section, you have the ability to configure many features, like setting your language, changing the interaction mode or confirmation prompts of voice control, and setting navigation map, route and traffic preferences (if equipped), among many other things.

Here's a brief overview of the types of settings you can configure.

- Press MENU > Settings
- Then press ...

#### ... System

- Once in System, you have control over settings, like:
  - Language
  - System Prompt Volume
  - Keyboard Layout
  - And more!

#### ... Voice Control

- Once in Voice Control, you have control over settings, like:
  - Interaction Mode
  - Confirmation Prompts
  - Voice Control Volume
  - And more!

#### ... Media Player

- Once in Media Player, you have control over settings, like:
  - Autoplay
  - Index Bluetooth® Audio Device
  - Gracenote Database Info, Media Management and Cover Art
  - And more!

#### ... Navigation (if equipped with SD Card map database)

- Once in Navigation, you have control over settings, like:
  - Map Preferences
  - Route Preferences
  - Traffic Preferences
  - And more!

#### ... Phone

- Once in Phone, you have control over settings, like:
  - Pairing and connecting Bluetooth-enabled mobile phones
  - Turning Bluetooth On/Off
  - Phone ringer settings
  - And more!

## 8.0-inch Touch Screen

### Menu

#### Getting Help

Although MyFord Touch™/MyLincoln Touch™ is simple, easy and intuitive to use, some people might need a little help at times.

#### To access the Help menu through the touch-screen system:

- Press MENU > Help
- From this screen, you can access:
  - **Where am I?:** Select to view the vehicle's current location
  - **911 Assist™:** Select to access the 911 Assist setting
  - **Voice command list:** Select to view possible voice commands
  - You can also access: System Information, Traffic Icon Legend, Software Licenses and Driving Restrictions

#### To access Help using the voice commands:

- Press (Ⓜ)
- After the tone, say "Help." The system will provide voice commands that can be used in the current mode

# 8.0-inch Touch Screen

## Information

### Overview

The Information button is always visible and active at either the bottom center (vehicles with SD Card navigation maps) or top-right corner of the touch screen. Depending on how your vehicle is equipped, it provides quick access to:

- SYNC® Services
- SIRIUS Travel Link® (if equipped)
- Notifications
- Calendar
- SYNC Apps:
  - Vehicle Health Report
  - 911 Assist™
  - Install Applications/Updates

Please note that the items under SYNC Apps are also accessible in duplicate locations throughout the system, as follows:

**To find Vehicle Health Report in another location:**

- Press MENU > Vehicle > Vehicle Health Report

**To find 911 Assist in another location:**

- Press MENU > Settings > Phone > 911 Assist, or
- Press MENU > Help > 911 Assist

**To find Install Applications/Updates in another location:**

- Press MENU > Help > Software License > Install Applications/Updates

## 8.0-inch Touch Screen

### Information

#### Complimentary SYNC® Services and Optional SIRIUS Travel Link®

Refer to the Navigation section (page 20) for details on feature availability if your vehicle is equipped with SIRIUS Travel Link. Here are the items you have access to:

#### SYNC Services

- Press **i** > SYNC Services
- Then, press "Connect to Services"
- When no SD Card navigation map database is installed, you have access to the following options:
  - Route Summary (Turn List)
  - Estimated Arrival (ETA)
  - Guidance Prompts
  - Cancel Route

#### SIRIUS Travel Link (if equipped)

- Press **i** > SIRIUS Travel Link
- Then, press:
  - Traffic On Route
  - Traffic Nearby
  - Other Traffic Places
  - Fuel Prices
  - Weather
  - Sports Info
  - Movie Listings
  - Ski Conditions
  - Subscription Info

**Note:** When driving, some functions are not available or only available through voice.

## 8.0-inch Touch Screen

### Information

#### Notifications and Calendar

To access notifications — like system problems — or to see a calendar view, follow these instructions:

#### Notifications

- Press **i** > Notifications
- Then, press:
  - View
  - Delete
  - Delete All

#### Calendar

- Press **i** > Calendar
- Then, press:
  - Go To Today
  - Next Month
  - Previous Month

## 8.0-inch Touch Screen

### Information

#### SYNC® Apps

You also have control over SYNC Apps, which include Vehicle Health Report (which gathers data from multiple sources to provide diagnostic, maintenance and recall information to keep the vehicle in top condition), 911 Assist™ (which, if selected, will automatically place a call to a 911 Operator in case of an accident with airbag deployment), and a section for software installation updates to keep the whole system running at peak performance.

#### Vehicle Health Report

- Press **i** > SYNC Apps > Vehicle Health Report
- Then, press:
  - Automatic Reminders
  - Mileage Interval
  - Run Vehicle Health Report Now

#### 911 Assist

- Press **i** > SYNC Apps > 911 Assist
- Then, press:
  - 911 Assist On/Off
  - 911 Assist Reminder

#### Install Applications/Updates

- Press **i** > SYNC Apps > Install Applications/Updates
- Then, press:
  - Begin Software Installation
  - View Software License

# 8.0-inch Touch Screen

## Home

### Overview

The Home button  is always visible and active at the bottom center of the touch screen. It provides access to three customizable home screens. Simply touch the button to see all three options, then select the one you want.

**Personal** home screen with an uploaded photo saved as wallpaper. Brought in via USB or SD Card.

**Smart corners** home screen with frequently used controls displayed for easy access. The features contained here are based on the equipment in your vehicle, like heated and cooled seats, SD Card navigation map database or if you have paired and connected your Bluetooth®-enabled mobile phone.

This is the default home screen every time you start the vehicle.

**Shortcuts** home screen with 22 customizable settings on two separate pages for creating shortcuts.

# 8.0-inch Touch Screen

## Home

### Creating Your Personal Home Screen and Customizable Shortcuts

You have the ability to make the look of your MyFord Touch™/MyLincoln Touch™ system all your own, and can create up to 22 customizable shortcuts on two separate pages to quickly access your frequently used features. Here's how:

- Press MENU > Display:
  - Then, press Edit Wallpaper to access a split screen showing current photo and saved photo
  - Plug in your USB flash drive or SD Card with your personal photo
  - Press Add to save a new photo
  - Press Edit to change your current photo selection, then save
- Press Home:
  - Then, press the shortcuts home screen view to bring it up full view
  - Press Edit/Add Shortcuts
  - You can then choose from up to 95 options. Here are some examples:
    - Ambient Lighting (if equipped)
    - Browse
    - Driver Cooled Seat (if equipped)
    - Driver Heated Seat (if equipped)
    - Heated Steering Wheel (if equipped)
    - Mute Call
    - Passenger Cooled Seat (if equipped)
    - Passenger Heated Seat (if equipped)
    - Play/Pause
    - Traffic
    - Valet Mode
    - Voice Control
    - Weather
- Use the arrows or touch the scroll bar on the right side of the screen to access the second page of shortcuts to access, edit or add

**Note:** Must be in Park to use these features.

## 4.2-inch LCD Screen (Right) — Infotainment Display

### Overview

A 4.2-inch LCD color display is on the right side of your instrument cluster. The five-way steering wheel controller allows you to scroll through the menus and features of Phone, Entertainment, Navigation and Climate with limited functionality over what you have in the center touch screen.

- Press ▲ / ▼ to scroll through the menus
- Press ► to enter the mode you want
- Press ► / ◀ to make adjustments
- Press **OK** to confirm your selection

## 4.2-inch LCD Screen (Right) — Infotainment Display

### Phone

The Phone menu allows you to keep your hands on the wheel and eyes up on the road for quick phone features while you're driving. You have access and control to limited phone features, for example, incoming calls, favorite contacts, recent calls and call history.

Provides access and control to limited phone features using your five-way steering wheel controller:

#### Call History:

- Quick Dial
- All Calls
- Incoming Calls
- Outgoing Calls
- Missed Calls

#### Incoming Text Message:

- Listen
- Ignore
- Dial
- Repeat
- Cancel

#### Privacy Mode:

- Switch to Handsfree
- End Call

#### In Call Options:

- End Call
- Go to Privacy Mode
- Mute Call
- Hold Call

#### Call Waiting:

- Accept Call
- Reject Call

## 4.2-inch LCD Screen (Right) — Infotainment Display

### Entertainment

The Entertainment menu allows you to keep your hands on the wheel and eyes up on the road for quick entertainment features while driving. You have access and control to limited entertainment features.

Provides access and control using your five-way steering wheel controller:

- Changing the audio source:
  - AM/FM1/FM2/HD1–HD7
  - SIRIUS® Satellite Radio – SAT1, SAT2, SAT3
  - CD
  - USB (2 ports available: 1 for playing and 1 for charging a device)
  - BT Stereo (to stream music from your Bluetooth®-enabled phone)
  - Line In (RCA jacks — video, right audio, left audio)  
(video playback in Park only)
  - SD Card

- Limited playback history for USB source:
  - Artist's Name
  - Album Name
  - Genre Name

## 4.2-inch LCD Screen (Right) — Infotainment Display

### Navigation

The Navigation menu allows you to keep your hands on the wheel and eyes up on the road for quick navigation features while you're driving. You have access and control to limited navigation features, depending if you are using the available SD Card navigation map database or directions through SYNC® Services. When you don't have SD Card navigation, this menu item will say "Compass" or "Directions" when on an active route.

Provides access and control to limited navigation map features (if equipped) or directions provided through SYNC using your five-way steering wheel controller:

#### Navigation:

- Direction Headed
- Next Turn
- Routed Map
- POIs Along Route
- Previous Destinations

#### Quick Navigation:

- Favorite Destination
- Recent POIs
- Favorite POIs

#### Emergency:

- Hospitals (shows facilities nearby and distance to)
- Police Stations (shows facilities nearby and distance to)

#### Active Route Options:

- Cancel
- Cancel Waypoint
- Set Next Waypoint

## 4.2-inch LCD Screen (Right) — Infotainment Display

### Climate

The Climate menu allows you to keep your hands on the wheel and eyes up on the road for quick climate features while you're driving. You have access and control to limited climate features.

Provides access and control to limited climate control features using your five-way steering wheel controller:

- On/Off

- Fan Speed

- Temperature

## 4.2-inch LCD Screen (Left) — Multifunction Display

### Overview

A 4.2-inch LCD color display is on the left side of your instrument cluster. The five-way steering wheel controller allows you to scroll through the menus and features of the following:

- Display Mode
- Trip 1 & 2
- Fuel Economy
- Settings
- Information

Your odometer: registers the total miles (kilometers) of the vehicle. It is always visible in the lower-left corner alongside tell-tale signs like low-tire-pressure warning and adaptive cruise control activation (if equipped).

## 4.2-inch LCD Screen (Left) — Multifunction Display

### Display Mode

You can configure the look and amount of information you want to see in the Display Mode:

- Fuel Gauge
- Fuel Gauge + Tachometer
- Circular Fuel Gauge + Tachometer
- Circular Fuel Gauge + Temperature
- Quiet Mode — shows Miles to Empty with Fuel Gauge (or includes Tachometer when selected through the Display Menu; see page 49)

When in Display Mode, you have access to:

- **Tachometer:** Indicates the engine speed in revolutions per minute. Driving with the tachometer pointer continuously at the top of the scale may damage the engine
- **Speedometer:** Indicates the current vehicle speed

- **Fuel gauge:** Indicates approximately how much fuel is left in the fuel tank (when the ignition is On). The fuel gauge may vary slightly when the vehicle is in motion or on a grade. The FUEL icon and arrow indicates on which side of the vehicle the fuel filler door is located
  - **Fuel gauge will change color depending on level of fuel and will show up on all modes:**
    - Blue for High
    - Yellow for Medium
    - Red for Low

- **Engine Coolant Temperature gauge:** Indicates engine coolant temperature. At normal operating temperature, the needle will be in the normal range (between "H" and "C")

- **Intelligent AWD gauge:** Shows the vehicle's AWD system (if equipped) transferring power to the drive wheels

**Note:** When in SelectShift mode, you can see the gear selected in the cluster.

**Note:** See the Settings section (pages 47–49) on how to change the settings.

## 4.2-inch LCD Screen (Left) — Multifunction Display

### Trip Computer and Fuel Economy

You can also view your trip computer and fuel economy information using the five-way steering wheel controller to easily scroll through the cluster screen.

Standard Mode

### Trip 1 & 2

When in Trip 1 & 2, you have access to:

- **Trip odometer:** Trip 1 & 2 registers the distance of individual journeys. Can switch the display from Metric to English
- **Timer:** Displays the trip elapsed drive time. Hold OK to reset

### Fuel Economy

When in Fuel Economy, you have access to:

- **Instant mpg (l/km):** This displays instantaneous fuel economy in miles/gallon or liters/100 km as a horizontal bar graph ranging from poor economy to excellent economy. The vehicle must be moving to calculate instantaneous fuel economy. When the vehicle is not moving, this function shows near zero bars illuminated. Instantaneous fuel economy cannot be reset
- **Average mpg (l/km):** Average fuel economy displays average fuel economy in miles/gallon or liters/100 km
- **Fuel history:** Fuel history shows fuel usage (avg mpg or l/100 km) as a bar graph based on time. The graph is updated with the fuel economy that was achieved during the prior 5, 10 or 30 minutes of driving

## 4.2-inch LCD Screen (Left) — Multifunction Display

### Settings

Similar to a typical message center function, but featuring much better user interface and ease of changing, the Settings menu can help you set up or configure the operation of vehicle functions (if equipped), including:

- Driver Assist
- Vehicle
- MyKey®
- Display
- Language
- Units
- Restore Defaults

**Note:** Names in the actual system do not reflect marketing or advertising terminology for some features. This is how they are displayed within the menu structures.

### Driver Assist

When in Driver Assist, you have access to:

- AdvanceTrac w/RSC > On/Off
- Blind Spot (if equipped) > On/Off
- Collision Warning (if equipped):
  - Sensitivity > Short/Normal/Long
  - Chimes > On/Off
  - Warn – ON > On/Off
- Cross Traffic Alert (if equipped) > On/Off
- Cruise Control (if equipped) > Adaptive/Normal
- Rear Park Aid (if equipped) > On/Off

## 4.2-inch LCD Screen (Left) — Multifunction Display

### Settings

### Vehicle

When in Vehicle, you have access to:

- Autolamp Delay (if equipped) > Off/0, 10, 20, 30, 60, 90, 120 or 180 Seconds
- Easy Entry/Exit (if equipped) > On/Off
- Fuel:
  - DTE Calculation > Normal/Trailer Tow
  - Long Term Econ > Hold OK to Reset
- Locks:
  - Autolock On/Off
  - Autounlock > On/Off
  - Remote Unlocking > Remote unlock all doors or driver's door on first press
- Menu Control > Standard or Memory On
- Oil Life Reset > Set to 70%, 80%, 90% or 100%
- Power Liftgate (if equipped) > Enable/Disable

- Remote Start (if equipped):
  - Climate Control:
    - Heater – AC > Auto or Last User Setting
    - Steering Wheel > Auto Heated/Off
    - Front Defrost > Auto/Off
    - Rear Defrost > Auto/Off
    - Driver Seat > Auto/Off
    - Passenger Seat > Auto/Off
  - Duration > 5, 10 or 15 minutes
  - Quiet Start > On/Off
  - Restore Defaults > Hold OK to restore remote start to factory settings
  - System > Enable/Disable
- Windows:
  - Remote Open > On/Off
  - Remote Close > On/Off
- Wipers:
  - Courtesy Wipe After Wash > On/Off
  - Rain Sensing (if equipped) > On/Off
  - Reverse Wiper > On/Off

**Note:** Names in the actual system do not reflect marketing or advertising terminology for some features. This is how they are displayed within the menu structures.

## 4.2-inch LCD Screen (Left) — Multifunction Display

### Settings

#### MyKey®

When in MyKey, you have access to:

- Create MyKey > Press and hold OK to create MyKey
- AdvanceTrac w/ RSC > Always On/Selectable
- Max Speed > Set to 80 mph (130 km/h)/Off
- Speed Warning > 45, 55 or 65 mph (75, 90 or 105 km/h)
- Volume Limiter > On/Off
- 911 Assist > On/Off
- Clear MyKeys > Hold OK to clear MyKeys

#### Display

When in Display, you have access to:

- Gauge Display > Fuel Gauge/Fuel + Tach
- Trip Display > Standard/Enhanced

#### Language, Units, Restore Defaults

When in Language, you have access to:

- Language > English/Español/Français

When in Units, you have access to:

- Units:
  - Distance > Miles/GAL or Kilometers/L
  - Temperature > Fahrenheit (F)/Celsius (C)

When in Restore Defaults, you have access to:

- Restore Defaults > Hold OK to reset to factory settings

**Note:** Names in the actual system do not reflect marketing or advertising terminology for some features. This is how they are displayed within the menu structures.

## 4.2-inch LCD Screen (Left) — Multifunction Display

### Information

The Information menu provides you access to different vehicle system information and to perform a system check:

### Information

When in Information, you have access to:

- **Intelligent AWD gauge:** Shows a screen to display the vehicle's AWD system (if equipped) transferring power to the drive wheels
- **MyKey®:** Shows useful statistics like number of Admin keys, number of MyKeys programmed and MyKey miles in distance traveled using a programmed key
- **System Check:** Performs routine evaluation of the following:
  - Oil Life
  - Wash Fluid
  - Doors
  - Liftgate
  - Liftgate/Glass
  - Blind Spot (if equipped)
  - Cross Traffic (if equipped)
  - Brakes
  - Fuel (distance to empty)

**Note:** Some items will only display during a system check if a problem has been detected. If an issue exists on one of the monitored systems, the message center will display the number of warnings that need immediate attention in red and the number of informational warnings will be listed in amber. Use the Up/Down arrow buttons to scroll through the list; press the right arrow button to display specific information on the highlighted warning.

Driving while distracted can result in loss of vehicle control, accident and injury. Ford strongly recommends that drivers use extreme caution when using any device that may take their focus off the road. The driver's primary responsibility is the safe operation of the vehicle. Use mobile phones and other devices not essential to the driving task only when it is safe to do so.
