From: Arija Flowers *AF*
Trial Attorney, Office of Chief Counsel

Attached to this memorandum is a three-page summary list of the injury and fatality information related to Takata inflator ruptures that NHTSA has received from various sources. This list has been redacted to protect Personally Identifiable Information and information subject to requests for confidentiality, including information regarding pending litigation, and are thus limited in the information provided. When an individual died as a result of an inflator rupture, both the "Injury" and "Fatal" columns are marked "Yes" since the person who died *was* injured; however, this is not an indication of an additional person injured beyond the decedent.
